**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8 and 17-19, drawn to a method of encouraging environmentally concerned design of goods involving a confidentiality agreement, classified in class 705, subclass 1.
  - II. Claims 9-16, drawn to a method of providing information via web compliance, classified in class 705, subclass 27, presentation of image.
2. In making a decision as to whether a Restriction is proper Examiner is to compare the claimed subject matter. MPEP 806.01. During the comparison the claims are considered to be in proper form and patentable/novel. Thus, Examiner must show the inventions are "independent" and/or "distinct". The inventions in this case fail the "distinct" prong of the test leading to proper restriction.
3. In order to establish that combination and subcombination inventions are distinct, two way distinctness must be demonstrated. MPEP 806.05(c)The inventions are distinct because it can be shown that a combination as claimed does not require the particulars of the sub-combination claimed for patentability, and the subcombination has utility by itself and in a different relation such as a the web compliant list file dealing with product component data may be used by customer who wants to know how bad products are for the environment that she is using or she may be allergic to a component in a certain product and want to look at component list for that reason alone

without one moments thought of environmental impact.. Further the inventions fall in different subclasses.

4. Because these inventions are independent and distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew L. Brooks whose telephone number is (571) 272-8112. The examiner can normally be reached on Monday - Friday; 8 AM - 5 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Weiss can be reached on (571) 272-6812. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
